

Executive Headshots and Portraiture

A business portrait, also known as an executive headshot, is all about marketing, branding, and portraying your personality. It is a visual snapshot of your competence and of your reputation; therefore it is important that your executive headshot is photographed in such a way as to deliver a message of confidence and approachability. Achieving this is accomplished not only by the right pose, but also with proper lighting, whether it is outside or in a studio environment.

JMAUROPHOTO provides expert executive headshot and portrait photography, as well as group, or “team” photography for your business.

Executive headshots can be photographed at an outdoor location of your choice or in a studio setting using a professional backdrop. We currently have three backdrops from which to choose:

Fashion Grey

Heavenly Blue

Black

We also have a seamless white background for composite or group-photographed team shots. On-location “studio” headshots can be arranged for your convenience (we bring our studio to you) for a minimum of five confirmed subjects to be photographed and a 50% deposit. On-location executive headshot photo sessions should be scheduled at least two weeks in advance.
